PROJECTS

Boat-Housing web application [Spring, AngularJS, Bootstrap, HTML, CSS, RESTful]

- Currently working on a web application that can have a login page, make reservations, view orders etc.,
- Application URL: <https://my-boating.000webhostapp.com>

HappyShopper- eCommerce website [Java, Hibernate, AngularJS, MySQL]

- Designed an e-commerce website featuring items display, sort by, filters, form validations, add to cart features
- Item suggestions are also given upon clicking on a item based on purchase statistics

My Personal Portfolio [AngularJS, Bootstrap, HTML, CSS, RESTful, Excel]

- This website has routing features from AngularJS which improves the performance speed
- Google API's are integrated to receive emails from contact/feedback form and the feedback is saved in MS Excel
- Application URL: <https://neerajaduri.000webhostapp.com>

Intact Job Search Platform [AngularJS, RESTful, Bootstrap, CSS, HTML]

- This is a platform where job postings from multiple job search engines like 'Indeed', 'usajobs.gov' etc., can be found
- The website exploits the reusability feature that AngularJS has embedded through the usage of directives and services
- Application URL: <https://search-jobs.000webhostapp.com>

Tennis league organizer [Python, MySQL]

- Developed an application that schedules matches, displays list of players, current standings and upcoming matches

ACTIVITIES & INTERESTS

- Assistant Event Coordinator for International Youth Festival 2016; Delegated hospitality services for 25,000 attendees
- Stood at 3rd place in a team of 3 participants in The Mays INFO Case Competition
- Volunteered for 'Hour of Code', an event to guide and motivate kids to pursue a career in technical domains
